OFFICERS DIRECTORY

Saratoga County

A Brief History

By Lauren Roberts, *County Historian*

Saratoga County was formed from lands previously belonging to Albany County on February 7, 1791. These lands included most of the Kayaderosseras Patent granted by Queen Anne to 13 of her "loving subjects" in 1708. Saratoga County occupies an important geographical position; bounded on the north and east by the Hudson River and the south by the Mohawk River, the confluence of these two great waterways have made the county a prime destination in times of both war and peace. The northwestern portion of the county is a mountainous area located within the Adirondack Park, while many important rivers and streams such as the Sacandaga and Kayaderosseras dominate the fertile valley areas. The diverse geography of this county has made it appealing to many different people who have chosen to call Saratoga County home.

The Mohawks of the Iroquois Confederacy used this area as hunting and fishing grounds before the Europeans settled here. Many waterways and well-worn Native American trails were used during the French and Indian War (1755-1763) and during the American Revolution. In the fall of 1777 British troops led by General John Burgoyne were headed south along the Hudson River when they encountered a large number of Americans entrenched at Bemis Heights. After two battles, the Americans were victorious and General Burgoyne surrendered to the Americans, led by General Horatio Gates on October 17, 1777. The Battle of Saratoga became famously known as the turning point of the American Revolution.

Saratoga County sits on a geological fault line from which mineral springs push forth to the surface. These mineral waters were thought to have healing powers by the Native Americans and eventually became a much sought-after resource for European settlers here as well. Ballston Spa became a well-known destination for visitors hoping that the medicinal effects of the mineral springs would heal their diverse ailments. Hotels and railroads were built to accommodate the multitudes of summer visitors. Eventually, Saratoga Springs would trump Ballston Spa as the "Queen of Spas" and enjoyed much prosperity through the Victorian Era. Summer visitors came to Saratoga Springs to "see and be seen" by others. Along with the various drink halls, fountains and bathhouses, Saratoga Lake and the Saratoga Race Track became other popular destinations for those visiting the area during summer months.

Saratoga County is filled with various museums, historic sites and parks that preserve the rich history of this area. Both visitors and residents alike enjoy the diverse environmental and historic attractions Saratoga County has to offer.

Focus On *Saratoga County* *Town of Saratoga*

By: Sean Kelleher, *Town Historian*

Saratoga is a corruption of an Indian word from the Mohawk branch of the Iroquois Indians. It was the name of an old Indian hunting grounds located along both sides of the Hudson River where in the Indian Tongue "Se-rach-ta-gue" meant "the hillside country of the quiet river."

The waterways of the Hudson and Mohawk rivers and Lakes Champlain and George have been prized natural routes of communication, trade, and warfare - highly coveted by those seeking control of this vast inland area for its rich natural resources and arable land. Saratoga is at the "four corners" on the Hudson River with easy water and land access to the Mohawk River, Lake Champlain, and Connecticut River valleys.

The English established a number of stockade fort and settlements in Saratoga between the late 17th and 18th Century. In 1777 - the third year of America's War for Independence - the British sought to quell the rebellion with a single decisive military campaign. The Americans committed to halt this invasion at Saratoga. The Americans determined resistance at Saratoga, coupled with British strategic blunders, resulted in a stunning defeat and surrender for a British army. This timely victory reversed military fortunes, boosted patriot morale, and gained international recognition and support, including vital military assistance for the American. The Battles of Saratoga were immediately recognized as important to an emerging nation.

The town of Saratoga was established on March 7, 1788 while still part of Albany County and became one of the original towns when Saratoga County was formed in 1791. The town lost some of its initial territory with the formation of newer towns, including what later became the city of Saratoga Springs.

Once the battles ended, visionaries worked to harness the rich natural resources, water power and a newly developed canal system to support growth. Large mills were established along Fish Creek and the Hudson River. The Champlain Canal linking Waterford with Whitehall provided a method to deliver goods to market. Through the years the rich soils in Saratoga have supported farming. Today, Saratoga is the home of the hallowed grounds of the Gerald B.H. Solomon Saratoga National Cemetery.

Saratoga has seen a number of travelers, those finding inspiration in the places where their forefathers fought for freedom and those finding enjoyment by watching nature.
